Executive Summary

Motivated Full Stack Java Developer with hands-on experience building scalable web applications using Java, Spring Boot, React, and MySQL. Certified in Full Stack Web Development from GT Software and completed Deloitte Australia's Cyber Job Simulation, demonstrating strong foundations in both development and security awareness. Proficient in RESTful API design, object-oriented programming, and responsive UI development, with practical exposure to the full software development lifecycle. Seeking to contribute as a fresher Full Stack Java Developer in a growth-driven team.

Technologies

Languages: Java (Core & Advanced), JavaScript, Python, C, C++
Frameworks&Libraries: Spring Boot, Spring Security, Hibernate (ORM), React, Node.js, Bootstrap
Tools& Databases: MySQL, PostgreSQL, Git/GitHub, Postman, Maven, Docker, IntelliJ IDEA

Projects

Social Media Sentimental Analysis

2023

- Developed an automated system to analyze and classify public sentiment from social media posts using Natural Language Processing (NLP).
- Implemented text preprocessing techniques including tokenization, stop-word removal, and lemmatization to clean unstructured data.
- Utilized machine learning models (like Naive Bayes or SVM) to categorize emotional tone, achieving high accuracy in detecting brand perception.
- Tools Used:** Python, NLTK/OpenNLP, MySQL, Matplotlib/Seaborn for visualization.

True Vision

2026

- Developed a Deep Learning-based system to detect manipulated facial features and synthetic media in high-resolution videos.
- Utilized Convolutional Neural Networks (CNNs) and Recurrent Neural Networks (RNNs/LSTMs) to analyze spatial and temporal inconsistencies in video frames.
- Implemented Face Extraction and Landmark Detection using libraries like OpenCV or Dlib to isolate regions of interest.
- Tools Used:** Python, TensorFlow/PyTorch, React (For user interface)

Personal Portfolio

2025

- Designed and developed a modern personal portfolio website to showcase projects, skills, and technical expertise.
- Built with responsive UI/UX principles using HTML, CSS, and JavaScript to ensure seamless performance across all devices.
- Implemented structured sections (About, Projects, Skills, Contact) with clean navigation and user-friendly design.
- Tools Used:** HTML, CSS, JavaScript, VS Code, AI Tools (Code Generation & Optimization)
- Link:** github.com/Karthi6374/MyPortfolio

Experience

Java Full Stack Developer (Intern)

Jan 2026 – Apr 2026

GT Software, Coimbatore

- Completed certified training in Full Stack Web Development using HTML, CSS, React, Core Java, and MySQL.
- Designed and developed responsive user interfaces using modern HTML5 and CSS practices.
- Built dynamic frontend components using React to improve user interaction and application performance.
- Implemented backend logic and object-oriented programming concepts using Core Java.
- Performed database design and management including writing SQL queries and joins in MySQL.
- Developed and tested small web applications; applied debugging techniques to fix errors and improve functionality.

Education

Mangayarkarasi College Of Engineering

Sept 2022 – May 2026

BE Computer Science

- Percentage: 73.2%

Languages

Tamil: Native
English: Proficient
